

**PRESS RELEASE – Oct 25, 2023**

**Sharp Management to Make MNL Annual 2023 Conference  
Carbon Neutral**

Innovative Green Technology company Sharp Management Inc. is pleased to announce that the Municipalities Newfoundland & Labrador (MNL) is offsetting the carbon footprint for its 2023 Conference: Toward a Sustainable Future with certified carbon offsets.

Sharp Management company president Glenn Sharp P. Eng, an international leader in the design of engineered wetlands, is pleased that his firm is the first in Newfoundland & Labrador to provide the sale of certified Carbon Offsets, held on the CSA - CleanProjects® Registry. Another Newfoundland and Labrador company Fundamental Inc. is calculating the conferences carbon footprint.

“I would like to congratulate MNL for taking this step and showing other firms, organizations and associations that we can all start taking action to offset our CO2 emissions when we can’t reduce or eliminate these emissions.”

“As a proud Newfoundlander I’m very glad to provide other Newfoundland and Labradorian individuals and firms and all Canadians through our broker Carbonzero, the opportunity to play a role in mitigating climate change by providing carbon offsets produced right here in Newfoundland & Labrador. These carbon offsets are generated from award winning engineered wetlands for the treatment of municipal sewage in Stephenville and Appleton-Glenwood by using only plants and soils, with no moving parts, no methane, no chemicals, and no electricity.”

You or your company can offset its CO2 emissions pollution and can also go carbon neutral. If the state of global warming has you upset, then offset. This is allowing Newfoundland and Canadian firms to move further toward Social Environmental Governance (ESG) and Stewardship by offsetting their carbon emissions.

To start purchasing offsets to reduce your carbon footprint at 10%, 50% or 100% and go carbon neutral, contact us directly through Sharp Management’s website: <http://sharpmngmt.ca> or by email at: [info@sharpmngmt.ca](mailto:info@sharpmngmt.ca) .

Sharp Management provides consulting and information sessions for companies, organizations, and individuals to understand how you can evaluate your operations or your facilities carbon footprint, and what you can do about it. Join firms such as Aker Solutions Canada, & MYSA and organizations such as Econext and Energy NL that are going carbon neutral and offsetting their Carbon Footprint with NL Carbon Offsets purchased from Sharp Management Ltd.
